

## FICHA TÉCNICA

LUMINARIO LED REFLECTOR  
TIREF500S

## ESPECIFICACIONES TÉCNICAS

|                      |                             |
|----------------------|-----------------------------|
| Potencia             | 500 W                       |
| Tensión Nominal      | 100-277 V~                  |
| Corriente            | 5.0 A                       |
| Frecuencia           | 60 Hz                       |
| Temperatura de Color | 3 000 K / 4 000 K / 6 500 K |
| Eficacia             | 110 lm/W                    |
| Flujo Luminoso       | 55 000 lm                   |
| Factor de Potencia   | >0.9                        |
| Índice de Protección | IP66 (Uso Exterior)         |
| Ángulo de Apertura   | 120°                        |

|                          |                 |
|--------------------------|-----------------|
| Atenuable                | No              |
| (IRC)                    | >80             |
| Vida Útil                | 30 000 h        |
| Temperatura de Operación | -20 - 40 °C     |
| Garantía                 | 5 años          |
| Material de la Luminaria | Aluminio (Fe)   |
| Terminado                | Gris Oscuro     |
| Base                     | Dirigible       |
| Pantalla                 | Vidrio Templado |
| Dimensiones              | 536*437*52 mm   |
